

Governing Board

SEDOL is governed through a two-tiered system – the Governing Board and the Executive Board. The Governing Board is composed of one board of education member from each member district selected by the respective board of education. It is the role of the Governing Board to establish policies to determine how member districts will cooperate to provide programs and services for students with disabilities as defined and mandated by the Illinois School Code. The Governing Board delegates to the Executive Board the authority necessary to manage particular operations of the district.
