

SEDOL Mitigation Measures Based on Current Community Levels

CDC Community Levels Defined:

COVID-19 Community Levels – Use the Highest Level that Applies to Your Community				
New COVID-19 Cases Per 100,000 people in the past 7 days	Indicators	Low	Medium	High
		Fewer than 200	New COVID-19 admissions per 100,000 population (7-day total)	<10.0
Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	<10.0%		10.0-14.9%	≥15.0%
200 or more	New COVID-19 admissions per 100,000 population (7-day total)	NA	<10.0	≥10.0
	Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	NA	<10.0%	≥10.0%

- SEDOL highly recommends that all staff and students continue masking when in school buildings regardless of the specific level of masking requirements in their building. If individuals have concerns about their safety and health under this policy, students should contact their program nurse and staff should contact Dr. Laura Wojcik to discuss individual needs.
- Masks are highly recommended at all times, but not required, for students and staff in an individual building in which there has been no student or staff exposure to a positive case in the school setting.
- **Masks are required in SEDOL Nurse Offices** when there is more than one individual present regardless of an individual building's current masking requirements. Masks will be made available for students and nurses.

Community Level	Masking Recommendation/Requirements	Social Distancing	Access to the Building During School/Staff Hours
Low	<ul style="list-style-type: none"> • No masking is required when there is a single case of COVID 19 within one school building. • A SEDOL building will shift to a situational masking recommended for a minimum of ten (10) days if there is two positive student or staff case in that building. When situational masking is implemented, masking is required for all students, staff, and visitors in all areas where contact tracing determines the positive case was present. Such areas potentially include, but are not limited to, classrooms, hallways, and lunch. • A SEDOL building will shift to a situational masking required for a minimum of ten (10) days if there is three positive student or staff case in that building. When situational masking is implemented, masking is required for all students, staff, and visitors in all areas where contact tracing determines the positive case was present. Such areas potentially include, but are not limited to, classrooms, hallways, and lunch. 	<ul style="list-style-type: none"> • Staff may eat only in designated lunch rooms or in office space alone (no classrooms when students are present) 	<ul style="list-style-type: none"> • The building is open to all approved visitors during the day. • Outside community partners may access the facilities.
