- Q Under Schedule and Delivery Maintenance Services, it states The Services must be scheduled during non-school time hours or on weekends, unless otherwise approved by SEDOL in writing. Are there any schools that can be serviced during the school year or are all of them to be serviced after school hours/weekends? I am assuming the school year runs till about June and then returns in September? Except for the extended school year which is June- July correct?
- A Non-school time is all hours outside of Mon-Fri 7am-4pm.
